2014 Student Council Candidates

The Calico Rock student body listened attentively to speeches given by prospective candidates for positions on the 2014 Student Council. Allen Crawford and Katie Hamby competed for the office of president with Katie "sweetening up" the students for their

votes, while Darby Ketron and Jerrica Pool faced off for the position of vice president. Jordan Cottrell and Abigail Humphries competed for the office of treasurer with Abby bringing a "chill" to the audience with her qualifications.

After a close-

ly contested race, Katie Hamby was elected President, Darby Ketron was elected Vice President, and Abigail Humphries was elected Treasurer. Kenlee Killian and Bryan Parnell were unopposed for the offices of Secretary and Reporter respectively.

Cars & Machines

Physics Robotics^{to}

The Physics class recently worked on a project for Mrs. Brannon. Each student was instructed to build a self-propelled, home-made car.

Becca Moss

On Thursday, October 2, students turned in a sketch of their project consisting of a drawing of the car, the measurements of the car, the materials used to make the car, and how it all worked.

Darby Ketron

Friday, October 3 the students had a test run of their cars. The test run helped the students see if their cars needed any modifications to make them go faster, a longer distance, or straighter.

Jan Matoska

The final due date for the self-propelled cars was Monday, October 13. Students were expected to have their finished project "ready to roll."

The cars were graded on whose car had the highest momentum, whose car went the farthest, whose car was the lightest, and whose car had the highest velocity. Tessa, Jan, and Jordan won those categories.

-Tessa Howell

The Calico Rock Robotics Team prepared for the annual BEST Robotics competition that was held on October 24-25 in Harrison, Arkansas. The competition consisted of ten or more teams meeting on the North Arkansas College South Campus to compete in what had been a 6 week long endeavor to build the BEST robot and deliver the BEST presentation and display booth. BEST stands for Boosting Engineering and Science Technology. This year's theme explored wind turbines and power generation. This was Calico Rock's 5th year participating in the competition, which included teams from as far away as Colorado. If you would like to contribute

the Calico Rock Robotics Team, please call the school and ask for Mrs. Sherry Newcomb or Mrs. Elizabeth Hiers. - Mrs. Hiers

Olivia Simpson

The Robotics team won 1st in Robotics, 1st in BEST (Boosting Engineering and Science Technology), Founders Award for Creative Design, Most Elegant Machine, and Best Marketing Presentation. WAY TO GO ROBOTICS!

Family, Career & Community Leaders of America.

FCCLA

A national student-led organization that helps young men and women become leaders and address important personal, fam-

ily, work, and societal issues through family and consumer sciences education. "We work to improve our families, careers, and communities."

FCCLA CREED

"We are the family, career, and community leaders of America. We face the future with warm courage and high hopes. For we have the clear consciousness of

seeking old and precious values. For we are the builders of homes, homes of American's future. Homes where living will be the expression of everything good and fair, homes where truth and love and security and faith will be realities, not dreams.

We are the family, career, and community leaders of America. We face the future with warm courage and high hopes."

Calico Rock FFA

Calico Rock FFA competitors “showed out” this year as they took the fairs by storm with both the junior high and senior high divisions winning numerous awards.

To help support the activities and competitive events, which students take part in throughout the year, the FFA sponsored a barbeque plate dinner before the October intramurals games.

This is only one of the many activities the FFA sponsors during the year.

Senior High, Junior High, and Open Show District Fair Winners in various cattle divisions were—

Justin Hicks (5 awards), Kaylee Pool (3 awards), James Sanders (2 awards), Sydney Brown (2 awards), Lindsay Killian (1 award), Baylee Hicks (5 awards), and Emma Barber (5 awards).

Emma Barber, president of the Calico Rock FFA, had a ready smile as she and other members of the FFA and their families served up a fabulous barbeque plate dinner for local patrons.

Senior High, Junior High, and Elementary District Fair winners in various pig/ swine divisions were—

Alex Hale (2 awards), Arthena Woods (3 awards), Ashley Venable (1 award), Natalie Cook (1 award), Syndey Brown (1 award), and Barrett Fountain (1 award).
