The month of November began with Calico Rock High School students choosing from a list of ten items the one which they considered the most important in their lives. The voting revealed that in every grade,

7th through 12th, family ranked highest. There was no doubt that the Calico Rock High School students, as a whole, think highly of their families. The runner-up categories were friends, love, and food. Everyone is

thankful for the friends he or she has; everyone is thankful for the love that he or she shares. And food, well, that is definitely a necessity! Thank you to the Calico Rock student body for your help with our poll.
